

Weekly Pacing Guide- Grade 5

This weekly pacing guide is designed to serve as a guide for teachers in the daily routine of using this resource. This ensures that the necessary skills are addressed in a timely fashion over the course of a year. Although this is the recommended pacing, there will be times when students may require additional adjustments depending on level of ability and familiarity with the skills.

NOTE: The scope and sequence documents include a total of 32 weeks of instruction: 4 weeks of instruction for the Literacy Launch, 14 weeks of instruction for informational/opinion writing and 14 weeks of instruction for narrative writing. There is additional time across the year that can be used in several ways including test prep and project work. Additionally, we have provided a series of slides as another way to view/organize your weekly plans.

Baseline- Prior to starting the Literacy Launch, administer a baseline assessment in the genre you will instruct first. See the Planning Guide Section of The Hub for suggested prompts.

Literacy Launch (4 weeks)

The Literacy Launch lessons should be done consecutively at the beginning of the school year. This establishes the foundational work necessary for every reading and writing experience students will encounter throughout the year. These skills include genre, organization, summary, and annotation and analysis. The time you take to establish this common language and assured experiences will allow students an awareness of the skills they need to become strategic readers and writers.

NOTE: Lessons titles in *italics* have similar objectives to the lessons in this Literacy Launch Unit and should be used at your discretion.
